JOBLING PURSER

TECHNICAL DATA SHEET

PRODUCT:
ARMACLEAN ECO PLUS

TDS VERSION:
1.4

EFFECTIVE DATE / REVISION:
18/01/24

ISO 14001 : 1996 REGISTERED

1. Products
ARMACLEAN ECO PLUS

2. Description
For superior cleaning and for preventing the build up of bitumen on tools and machinery, our Armaclean Eco Plus is the ideal choice as it is non hazardous and extremely effective.

3. Application
Apply to tools and machinery sparingly through a hand held sprayer and only re-apply when bitumen starts to build up again. Brushes can be soaked in Armaclean Eco Plus but over usage is uneconomical.

Note: avoid applying Armaclean Eco Plus onto metal walkways, boot soles or foot pedals as residue may cause a slip hazard. Care should also be taken around rubber hoses as some types may corrode over time.

4. Packaging
Armaclean is supplied in 1,000 litre IBC's, 200 Litre Drums, 25 litre kegs, 5 litre tins or 500ml bottles with trigger sprays – 24 bottles to a box or sold individually.

5. Storage
Store indoors out of direct sunlight. Protect from frost.

6. Health and Safety Advice/Summary
Please refer to the product safety data sheet for further information.

7. Additional Information
All products should be used in accordance with the manufacturer's instructions. No responsibility can be taken by the manufacturer where conditions of use are beyond our control. Jobling Purser products are available for sale in accordance with Jobling Purser Standard Conditions of Sale, available on request. Whilst any information and/or specification contained herein is to the best of our knowledge true and accurate, no warranty is given or implied in connection with any recommendations or suggestions made by us or our Representatives, Agents, Distributors as the conditions of use and any labour involved are beyond our control. Jobling Purser Technical Data Sheets are updated on a regular basis. To ensure that this Technical Data Sheet has not been superseded, please contact Jobling Purser.
